### Technical Delegate's Report

After the race of the Monaco GP car number 33 was randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections were the pedal assembly including brake master cylinders, throttle pedal position sensing, associated dampers, surroundings within the survival cell, sensors and their loom routing and connections to the SECU and other units.

All inspected components were found to be in compliance with the 2021 Formula One Technical Regulations.
