		Time	15:00

Technical Delegate's Report

After the race of the 2021 Portuguese Grand Prix, car number 04 was randomly chosen among the top ten finishers for more extensive physical inspections.

Subject to these physical inspections were the complete rear wing assembly including the complete DRS hydraulic system as well as all attached sensors, their loom routing and connections to the SECU and other units.

All inspected components were found to be in compliance with the 2021 Formula One Technical Regulations.

Jo Bauer
